PROFILE

Courteous and enthusiastic, I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming e.g. developing websites and apps. I have gained worked experience as an I.T consultant/Project Executive and a freelance graphics and web developer. I am keen to learn and gain more experience in this field. For this reason I am looking for a company willing to offer me a placement among their developers. In return I would offer my full commitment and be a pleasant and friendly addition to your team. I am therefore currently looking for a job or an internship as a Front-end developer.
